INTRODUCTION

2. Service tax is imposed on prescribed services called “taxable services”.

3. A person who provides taxable services exceeding a specified threshold is required to be registered under the Services Tax Act 2018 and is known as a “registered person” who is required to charge service tax on his taxable services made to his customers.

4. This guide is prepared to assist you in understanding the service tax treatment on the provision of telecommunication services.

IMPOSITION AND SCOPE OF TAX

5. Effective from 1 September 2018, under Group I, Item 2(a), First Schedule of the Service Tax Regulations 2018, the provision of:

   (i) telecommunication services; and

   (ii) other services in connection with telecommunication services excluding provisions of services to another provider of telecommunication services in Malaysia or outside Malaysia

   are subject to service tax.

GENERAL OPERATIONS OF THE INDUSTRY

6. Telecommunication services can be divided into two categories:

   (i) Basic telecommunications which are the transmission of voice or data from sender to receiver;
(ii) Value-added services, for which Telco adds a value to the telecommunication services.

Basic Telecommunications

7. Basic telecommunication services include end-to-end emission, transmission or reception of sound, data, text, visual images, signals or any other form or any combination of those forms. Such services also include:

(i) Fixed network voice telephone
(ii) Analog/digital cellular/mobile telephone
(iii) Satellite Telecommunication
(iv) Internet and other digital data transmission
(v) Network component rental, sales and service
(vi) Network access and network facilities
(vii) International telecommunication basic infrastructure
(viii) Wireless paging
(ix) Resale of basic telecommunication

Value-Added Telecommunication services

8. Value-added telecommunication services are based or depending on the infrastructure facilities for the provision of basic services or other services without having to build its own infrastructure network. Such services also include:

(i) Fixed telephone network value added services
(ii) Mobile network value added services
(iii) Satellite network value added services
(iv) Internet value added services
(v) Other data transmission network value added services
9. In value-added telecommunication services, providers add value to the customer’s information by enhancing its form or content or by providing for its storage and retrieval.

SERVICE TAX TREATMENT ON TELECOMMUNICATION SERVICES

10. In general, all telecommunication provider who are registered under Communication and Multimedia Act 1998 that provide telecommunication services in Malaysia to its subscribers are subject to service tax. This includes outbound roaming services provided by any Malaysian telecommunication providers to the subscribers outside Malaysia.

11. However, the provision of telecommunication services to another telecommunication service provider in Malaysia or outside Malaysia are not subjected to service tax.

RESPONSIBILITY OF REGISTERED PERSON

12. A service provider reaching prescribed threshold of taxable services provided is required to be registered. Please refer Service Tax Registration Guide.

13. A registered person is responsible to:

   (i) Charge service tax on taxable services;
   (ii) Issue an invoice and receipt to the customers in respect of any transaction relating to the provision of taxable services;
   (iii) Submit service tax return SST-02 electronically and pay service tax before due date;
   (iv) Keep proper records.

For further information with regards to the responsibilities of a registered person, please refer to General Guide and relevant Specific Guides.
